

Details Not Revealed Hirohito Breaks Long Precedent By Visiting General MacArthur Quit Work in Protest Against Present Meat Ration System

Southern Alberta today again was the scene of a coal miners' strike—the second in less than two years—as about 4,300 men left their jobs in protest against meat rationing. Declaring the government's demand for a weekly allowance and token rationing system, was inadequate for hard-working coal miners, they carried out previously-announced plans to strike if the Dominion government did not allow them an increase.

The miners demand a double ration of fresh meat and lifting of restrictions on such staple foods as butter, eggs and poultry.

Cut Off Supplies

Gang of 15 Plants in Montreal

MONTREAL, Sept. 27.—(CP)—Men who came from the direction of the Montreal waterfront today forced the closing of three meat packing establishments in the Montreal district, and threatened a move to cut off supplies to the city's butchers unless the government met the protesting butchers' demands of striking butchers to close.

The men, said to be organized by the Unions of the men who went on the strike yesterday in what they said was a protest against the meat inspectors' refusal to close the plants of the Swift and the St. Lawrence Meat Packers.

Take No Action In Coal Strike

It is too soon to make any predictions about local coal miners walking out in protest against new ratification of the contract in the Crowsnest and Drumheller fields here, according to a spokesman for the United Mine Workers of America.

The union's local in the Crowsnest Company and the Drumheller Company. All three plants are close to the waterfront. In addition, the large retail firm of Penner Brothers—not far from the waterfront—closed by a gang of some 200 men.

Elsewhere in the city the situation remained quiet. Practically all stores were open and business normally, as were a number of

Though miners feel that the union is not sufficient for men doing their own work, they have yet been taken toward a strike.

Thousands to Die

For Fire Bosses At Drumheller Set

OTTAWA, Sept. 27.—(CP)—The National War Labor Board today announced that it will set a minimum day wage of \$16 for fire bosses employed in RCAF fire stations.

The decision was given on an application by the National Union of Firefighters.

In the trial of 43 N.W. guards and common-law employees of the Cawston and Belcar camps.

Glownick said Irma Grese sent sick and weak inmates along with her.

"She sent them confined to her wing," the witness testified before the court.

"I am not sure whether anyone she did not like, and she carried pistols."

Not Appropriate Time For Parley With Butchers

OTTAWA, Sept. 27.—(CP)—Prime Minister Mackenzie King today said it was not appropriate for the government to be "carefully considering any representation from the Canadian Association of Butchers."

Mr. King said he was "not

The province's I.L.A. sent from 1930 to 1934 a list of 20 day employees every month and the supply of free household coal was donated.

The wage application applied to 69 men whose wage rates ranged from \$120 to \$140 a month. The board said that while men below the established rate of \$187.17 a month were to be paid that rate, there would be no reduction in the wages of those already receiving more.

Grinnick's collapsed yesterday when it was reported that the company was planning the killing of its brother by the state.

House Debates Wheat Policy As Members Condemn \$1 Floor

By D'ARY O'DONNELL

OTTAWA, Sept. 27.—(CP)—Wheat and its price held the spotlight in the Commons yesterday as members from western Canada debated the government's "one-cent wheat

Out of the arguments arose a CUF sub-amendment to a Progressive Conservative amendment moved last night to the motion for adoption of the throne speech. The amendment requires that the maximum price for wheat even if the government had to make up for a loss out of general revenue.

The CUF sub-amendment, moved by Percy Wright, former representative in the Saskatchewan legislature, was seconded by Reginald McMillan, said that "We're

House Debates Wheat, Policy, 51 Floor Price

Continued from Page One

specifically submit to your Excellency that immediate consideration should be given to establishing of floor prices for all agricultural products at parity with other services and products."

CONSERVATIVE AMENDMENT

Progressive Conservative amendment, moved by L.C. A. Ross, successful for the Manitoba riding of Souris, read: "The member moves that the government should establish the price of wheat at a level not less than 90 per cent of parity."

Mr. Wright said he was surprised L.C. Ross moved an amendment suggesting that the farmers of Canada should be satisfied with 90 per cent of their cost of production.

Mr. Ross said his idea was in the period of discussion following the war, not to be established for a period of years floor price for wheat, but to set a price at levels not less than 90 per cent of parity.

OTHER SPEAKERS

Others participating in the debate were Mr. Walter (C.P.), Mr. John Diefenbaker (P.C.), Mr. J. G. Macdonald (P.C.), Mr. F. W. McLeod (C.P.), Mr. C. G. Tucker (C.P.), Mr. J. G. Macdonald (P.C.), Mr. F. W. McLeod (C.P.), Mr. C. G. Tucker (C.P.).

RELY ON FLOOR

The "daily" speaker said that the matter which happened—prices for wheat—was not a matter of wheat, but a matter of the farmer's right to his own wheat.

"I understand the attitude of the farmers, it is fair, they want to be paid for their wheat, and they want some idea as to what they are absolutely entitled to."

Funeral at Coast For Rev. A. L. Carr

Funeral service for the Rev. Arthur L. Carr, former Alberta minister, will be held Friday, Sept. 28, at 10 a.m. at the St. James' Episcopal church, 414 St. James' street, N.W.

Power Production Reveals Increase

During the period Jan. 1 to Sept. 26, 1945, power production in the province was 1,450,000 kilowatt hours compared with 1,350,000 for the same period last year, an increase of 7.5 per cent.

Refusal Query

Mr. Diefenbaker wanted to know if the government was prepared to refuse to agree to a common price for wheat at a level not less than 90 per cent of parity.

Card Mailed by City Man Killed at Hong Kong in 1941 Is Delivered

CALGARY, Sept. 27 (CP)—On Dec. 7, 1941, Maj. C. A. Lyndon, Edmonton, addressed a Christmas card to the Canadian Expeditionary Force at Hong Kong.

Yesterday, nearly four years later, the card was delivered to Mr. Lyndon's home in the city.

5-Billion Loan To Gt. Britain Said Planned

By JOHN M. HIGHTOWER
WASHINGTON, Sept. 27.—(AP)—United States officials working out plans to help Britain are said today to favor a loan of \$5,000,000,000. It would be at a low interest rate and without strings as to where the money should be spent.

Whether a plan along this line finally is presented to congress will depend on further Anglo-American negotiations and formal acceptance of the idea by the London and Washington governments.

Trade talks under way here several weeks, still are in the stage of exploring just what Britain's financial troubles are and exactly what help may be needed. Nevertheless, opinion among United States negotiators is fairly well formed on the main points.

The essence of Britain's trouble is that she has to exist for the next three years or more while recovering its profitable peacetime trade.

BRITISH CONTENTION

The British contention is that if financial aid can be obtained it will be possible for a new era of trade to be developed along free, competitive lines. Otherwise the British Empire will have to go in for a kind of economic isolationism in order to survive the crisis.

The Americans do not accept a reported British thesis that the aid must be a practically free grant of from \$3,000,000,000 to \$4,000,000,000. Instead, the United States view is that Britain must cut her overseas sterling debt of \$10,000,000,000 by probably 40 or 50 per cent.

Before the trade talks started the United States was thinking in terms of a \$3,000,000,000 loan. As discussions developed, however, the American view has given among American officials that a \$3,000,000,000 loan would be better.

Free Travel Aid For Servicemen

LONDON, Sept. 27.—(CP)—All men and women who served in the United Kingdom or Northern Ireland with the armed or auxiliary forces of the United Nations were invited yesterday to become honorary members of the Travel and Industrial Development Association of Britain and Ireland free of cost.

J. G. Bridges, director general, yesterday issued a special invitation through The Associated Press to Canadians and Americans to write him at No. 4 Arlington street, London, N.W. 1, for membership card.

Each card bears the emblem of the association, a miniature map of the British Isles and the owner's name, service number, the branch of the service and the territory in the United Kingdom or Northern Ireland where he served.

A number will be kept informed of British affairs and prospects of tourist travel in the British Isles, will receive a pocket calendar of events each year and may use the association's information bureau in London and throughout the world.

CCF in Approval Ration Principle

OTTAWA, Sept. 27.—(C)—The CCF leader said yesterday in a statement that while the representatives of his party in the common approved the principle of most rationing, they do not necessarily approve of the manner in which it was instituted.

Mr. Caldwell's statement made reference to figures on the meat situation placed before the common earlier this week by Finance Minister Duggan.

"However, although the CCF approves the principle of meat rationing, it does not necessarily approve of the manner in which it has been instituted by the Liberal government," Mr. Caldwell said.

"Large packing houses have the export rights with the result that the small domestic packer may find much meat spoilage on his hands due to his inability to find a suitable market."

"If this is to be overcome a proper balance must be maintained between the exportation of meat abroad and the amount of meat allowed on the local market by domestic packers. With meats of all kinds urgently needed everywhere we cannot afford to let meat go to waste. Investigation is being continued."

Reserve Judgment In Share Law Suit

THOMSON, Sept. 27.—(CP)—The Ontario appellate court yesterday reserved judgment on the appeal by Andrew Webb, co-owner of the Newmarket Egg and Knapton, from a decision of Mr. Justice Hogg annulling an action for a court order setting aside a transfer of 25 key shares in the company to W. F. Mulock, former postmaster general, to whom the 25 shares brought equal control in the company.

Empire Tariffs To Be Studied At Conference

OTTAWA, Sept. 27.—(CP)—A well-attended official in the imperial recently expressed the opinion that imperial tariff preferences would be under review within a few months by conferences of British Commonwealth representatives.

He did not think there would be a full-scale imperial economic conference such as met in Ottawa in 1932 and which had a well-defined legal status. Instead, it likely would be a less cumbersome conference involving members of Commonwealth governments and their staffs, the size depending on the number of economic questions to be studied.

Dispatches from Washington have described the emphasis American negotiators are placing on a lessening of imperial preferences in any agreement between United States and the United Kingdom by which American financial assistance would be extended to enable Britain to meet her post-war difficulties.

SPECIAL CONCESSIONS

Since the United States has free trade among its states and a tariff wall against the rest of the world, British spokesmen have frequently stressed similarly that the countries which made up the British Commonwealth should not be deprived of any trading advantages they can get through special tariff concessions among themselves, not extended to foreign countries, even though the empire nations are spread around the earth.

Notwithstanding any rights of Commonwealth countries to have tariff preferences there seems to be a feeling here that the time has come to review them and lessen them in the hope foreign nations also will reduce their tariff barriers.

Canada's attitude likely will be to require where the preference it enjoys might be reduced and wealth countries to decide whether they are desirous of changing any of the preferences which have helped them sell more products in Canada.

In 1938, the last year before the war, Canada sold the remainder of the Empire more than \$500,000,000 worth of goods and bought less than that amount. Therefore, there was a shortage of dollar exchange in all other parts of the Commonwealth. Canada would be getting nothing but a loss which would tend to increase the top-heavy trade balance that existed before the war.

In fact, Canadian trade officials are doing their best to find ways of reducing this balance by increased purchases from those countries.

Master Agreements For Packing Plants Requested by Union

TORONTO, Sept. 27.—(CP)—Fred Dowling, Canadian director of the United Packinghouse Workers of America (CWA), has made renewed proposals that Canada's "big

three" packinghouse companies negotiate with the UPWA to sign a Canada-wide master agreement for each company. It was announced yesterday.

Mr. Dowling has written to Canada Packers Ltd., Swift Canadian Company Ltd., and Burns and Company Ltd., and Bunn's and Company Ltd., suggesting that master agreements should be discussed instead

of continuing current negotiations between the union and individual plants of each company.

The proposal will be discussed at a conference of representatives of all UPWA Canadian locals in Winnipeg on Sept. 29 and 30.

The great fire of London began Sept. 2, 1666.

FIRST AIR MAIL
America inaugurated regular air mail service in 1891. By the use of timing pigeons, a reliable air schedule was established between Santa Catalina Island and Los Angeles, but Marconi's wireless brought the venture to an end in 1898.

Coast City Wars On Crime Movies

VANCOUVER, Sept. 27.—(CP)—The Vancouver film commission associated itself yesterday with city council's drive to have stricter censorship of films shown in Vancouver and decided to write Provincial Attorney-General R. L. Mainland asking him to check on the operations of the board of film censors.

This action was requested by council Tuesday when they decided that certain types of moving pictures, as well as radio programs, newspaper stories and comics, were to blame for creating juvenile criminal gangs.

Representatives of film distributing agencies here earlier said that crime films should be blamed in any way for juvenile misdeeds.

Contending as proof that films do not cause crime, film representatives said that in some cities all over the North American continent and crime rates vary from nothing to high percentages.

Representatives of film distributing agencies here earlier said that crime films should be blamed in any way for juvenile misdeeds.

Bloc Populaire Paper Suspends

MONTREAL, Sept. 27.—(CP)—Le Bloc, weekly organ of the Bloc Populaire Canadian, has ceased publication. It was announced yesterday. The announcement said the paper would be continued to Leopold Huber, present director, and that he will found a new weekly, Notre Temps, which will appear early next month. Mr. Huber formerly was in the Ottawa press gallery, where he represented Le Devoir of Montreal and Le Droit of Quebec.

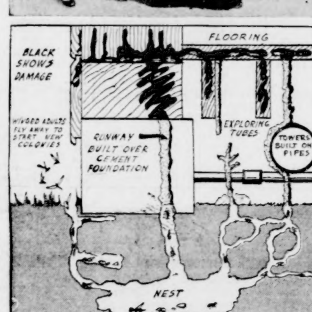

Store Big Bombers At Western Point

OTTAWA, Sept. 27.—(CP)—Flying from the east coast to storage in western Canada, a fleet of 15 four-motored Lancaster bombers passed over Ottawa yesterday in "Y" formation. Declaring it an official said they were being stored in western Canada because sail air on the east coast was considered harmful to the motor.

Huge Sunflower Is Grown in U.S.

CUMBERLAND CENTRE, Me., Sept. 27.—(AP)—An 81-foot sunflower with 43 heads and 11 flowers on one stalk, was displayed by E. A. Birch yesterday. Birch said the big plant grew from seeds he mixed with scratch feed for his pigs.

Through its newly established office in Australia, the National Film Board has arranged for photographic and cinematographic events in Japan and get a film story of developments in the Pacific for showing in Canada.

THEY'RE NOT REALLY SO BIG—Here's how termite tunnels to reach woodwork. Quickly and rapidly they chew their way through a raft or post, taking care always to respect the path. The house owner is unaware that thousands of phantoms are haunting his house until it starts to fall down around him. The only way to get rid of "Termites" is to trace his path through eaten wood and discover his entrance into the house. He must have entered at some point where wood and earth meet. When the entrance is found it must be cut off by poisoning earth at that spot with coal tar creosote. When the termite gets away and out of the house is cut off and they cannot get into the earth every few hours, they just dry up and die.

TERMITES CHEWED THIS SHOE THIS HAPPENED IN TORONTO

Toronto has gained a new honor and is very unhappy about it. It is the northernmost point in the world to be plagued by termites, and householders and property owners fear that their houses may fall about their ears any day. The city fathers are worried, too, and have appealed to U.S. government experts in Washington for help. Whence and how the wood-eating pests came is a mystery, but beams and rafters dangerously eaten away have been found in several parts of the city. They're really quite small, but this artist's nightmare gives an idea of how they "look" to residents of the infested areas.

Electric Dealers Blame Price Board For Short Supplies

MONTREAL, Sept. 27.—(Heaters)—The Canadian Electrical Dealers Association yesterday blamed the Prices Board "for lack of action" for a situation which, as they claimed, was caused by the failure of the board to take action to secure a sufficient supply of electrical goods.

The association is holding its annual fall meeting here today. It was announced here yesterday.

A press statement said adequate and efficient electrical service is essential to housing plans and charged that "distributors throughout the Dominion are now in the position of being unable to supply

British Admiral Gets French Award

PARIS, Sept. 27.—(Heaters)—When Admiral of the Fleet Sir Andrew Cassingham received the grand cordon of the legion of honor from Gen. de Gaulle today, he will be the first British officer to be awarded a French decoration since Winston Churchill's note to Gen. de Gaulle last summer announcing British intervention in Syria. It was announced here yesterday.

It is interpreted here as a sign of the change which has come about in Anglo-French relations, any war and are so far behind in their orders that the situation is being made up by the use of force to make up deficiencies.

Store Big Bombers At Western Point

OTTAWA, Sept. 27.—(CP)—Flying from the east coast to storage in western Canada, a fleet of 15 four-motored Lancaster bombers passed over Ottawa yesterday in "Y" formation. Declaring it an official said they were being stored in western Canada because sail air on the east coast was considered harmful to the motor.

CANADIAN CRUISER IS ONLY SHIP IN HONG KONG TASK FORCE TO PROCEED TO KOWLOON
Canadian cruiser, HMCS Prince Robert, was the only ship in the British task force that relieved Hong Kong to proceed to the Kowloon side of the harbor. Here, Cmdr. L. L. Atwood of Ottawa directs the first landing party ashore.

A landing party from the Prince Robert is shown making its way ashore at Kowloon to round up the Japanese in the dockyard and to secure the dockyard area against Japs.

Escorting their first Japanese prisoner are Able Seaman Paul Shoobert, Toronto, Ont., and Stoker Jim Furlong of Vancouver, B.C. It didn't take them long to disarm and take them into custody. The Japanese was a sentry guarding the city.

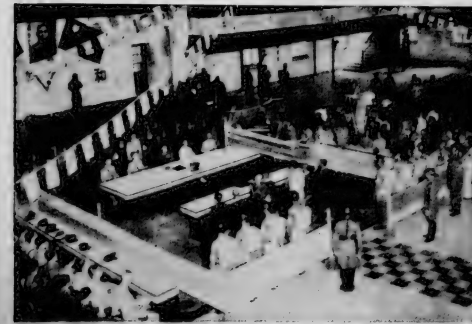

WANNA SHIP, TANK, PLANE? WAR ASSETS CORPORATION ASKS.—What's your bid for this Mosquito? If you want a speed of 400 miles an hour at your fingertips, you can't do better than one of these Toronto-built plywood sky-fighters. War Assets Corporation has a vast accumulation of war goods and weapons awaiting to be disposed of—if buyers can be found. The Mosquitoes cost \$150,000 and can now be bought for what will you bid. If you need to go places in a big hurry, what better way than to own a Mosquito? It whisks you through the air at about 400 miles an hour. Or could the engines be used for speedboats?

Here is a line of Griseley and other type tanks. What to do with them? They could be stripped of about 15 tons of super structure, still leaving a mighty work horse of about 15 tons. Their speed rate of 25 miles an hour makes them ideal for use as snowplows.

MEAT RATIONING WON'T BOTHER THESE MEN FOR A WHILE.—Come what may, these three men won't have any worries about meat rationing for a while. They hauled this catch of 13 pike out of Long Point Bay within two hours to set what is believed to be a Lake Erie record. Only Bernard Barron, right, and Joe McCabe, centre, were fishing. Grant Moffit ran the boat.

AS GEN. OKAMURA SURRENDERS TO THE CHINESE AT NANKING, CHINA.—This historic scene was enacted in the Central Military academy, Nanking, China, when Gen. Okamura officially surrendered to the Chinese field commander, Gen. Ho Ying-Chin. The Chinese forces are behind table, facing the camera.

FOR THEM IT'S A BEGINNING OF A NEW LIFE.—Terror from the skies has ceased for Tokyo children and they have resumed their play. A U.S. newsmen watches a group all wearing wooden "platform" shoes.

WINS PRIZE FOR EDITORIAL PAGE IN WEEKLY.—Mrs. Katharine A. Marston, Elora, Ont., widowed mother of four school-age children, who four years ago had no experience in the newspaper business, has just won the prize for the best editorial page in Canada's small weekly papers. The Canadian Weekly Newspapers association has awarded Mrs. Marston the John Edey memorial trophy. In her first year of publishing, she won second prize for editorials in weeklies of less than 1,000 circulation. Her children, Robert 14; Donald, 12; David, 10, and Nora, nine, have done their part to assist and are shown congratulating their mother. "Take a definite stand on local matters; get something of local and national interest in every issue," is Mrs. Marston's formula for her editorials.

PREPARING FOR OCCUPATION TROOPS.—This Japanese woman with her baby strapped to her back is getting ready for U.S. occupation troops. She's cleaning a window in Atsuh barracks in Tokyo now occupied by the 1st Cavalry Division.

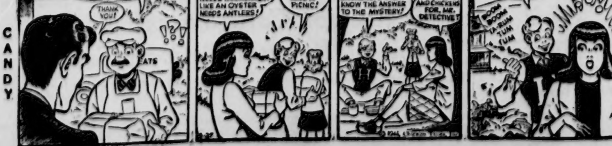

DEPARTMENT STORE OFFERS PLANES TO PUBLIC FOR FIRST TIME.—Bantam bargain in this bantam plane being offered by a Chicago department store which offers eight hours' basic instruction to the purchasers. Price of the plane is \$2,010.

CANADIANS "DOWN UNDER" TAKE TIME OUT.—Ontario men are entertained by an Australian guitarist, Bluey Jones, while they serve with Australian forces. Left to right: Howie Wright, Toronto; Jim Coulter, Toronto; Mac Cochran, Amprio; Van Whitaker, Brantford; Bill Bavioli, Watford.

HENRY FORD TURNS OVER JOB . . . TO GRANDSON, HENRY FORD II.—Henry Ford II, right, has been named as president of the Ford Motor Co., succeeding Henry Ford, his grandfather, left, who has resigned. The appointment of the new president was made after the directors had received Henry Ford's resignation. Henry Ford II was elected a director of the company on Dec. 19, 1933 and was appointed vice-president on Dec. 15, 1943. His advancement to the executive vice-presidency came in April, 1944. Thus he becomes one of the youngest executives in the United States.

Community Chest Fund at \$56,460

The latest announced total for the Community Chest fund for the 1970-71 fiscal year is \$56,460. The individual donors have given a total of \$56,461 to help support the 28 civic welfare groups which depend on the community chest for funds to continue their work.

The industrial and commercial sectors alone shows that 773 different contributions came to a total of \$52,444. In the business sector, 202 separate items showed up, which brought in \$1,125. The residential area with 686 names has advanced the Chest total by \$1,877.

While officials in the Chest office are not sure of the exact number of people who contributed, they will reach the \$100,000 objective before the year closes this year, and 90 percent of the total is still to be obtained. The final drive is now on.

Woman Is Fined

In Rental Case

Mrs. M. Swityk of Edmonton was fined \$30 and costs or six weeks imprisonment by Magistrate A.

Millar, KC, in city police court Wednesday afternoon on a charge laid under Leasehold Regulations. It was alleged she had charged higher rent than was "reasonable or just" for basement accommo-
